

Virginia Sharma is a U.S. trained educator with over ten years of experience. She received her Bachelor of Science in education from Texas A&M University where she focused on math and science education. As a classroom teacher, Virginia has obtained certifications from both California and Texas. Previously, Virginia has taught on the primary and secondary level in Dubai and the United States. As a specialist teacher she taught math, science, and innovation. In elementary school, Ms. Virginia taught grades 3 and 4.

Her previous leadership experience in Dubai includes Middle School Science Head of Department, Head of Teaching and Learning, Educational Quality and Improvement Advisor, and Vice Principal. Virginia is passionate about a holistic approach to education for students and experiential learning. She is dedicated to her profession and has spent numerous hours researching scientifically backed approaches to literacy, project-based learning, and student-centered learning.

Virginia has lived in Dubai for over six years. She is excited about joining the Dubai International Private School community as the Director of Teaching and Assessment and continuing to empower both students and educators.
