

PROFESSIONAL BIOGRAPHY

Inaam Mohsin | Head of Science Department – High School

I hold a Bachelor's degree in Chemistry and graduated with a strong academic record, ranking 14th among more than 100 students in my university cohort. Since beginning my teaching career in the UAE, I have gained more than 15 years of experience in education, teaching science and chemistry, with a particular focus on high school chemistry.

My professional experience also includes more than three years of teaching AP Chemistry, supporting students in developing conceptual understanding, scientific reasoning, and the skills needed to succeed in a rigorous college-level course. In addition to my classroom experience, I have served for more than two years as Head of the Science Department – High School, where I work collaboratively with teachers to strengthen teaching and learning, promote effective instructional practices, and support student progress.

I am committed to using my knowledge and experience to contribute positively to the school community. I strive to promote high standards, continuous improvement, and evidence-informed teaching practices that help every student make progress. I value collaboration, professional growth, and the ongoing development of science education, and I aim to contribute to the school's continued success through dedicated leadership and effective teaching.
